

## Section 1. Field notes on the water tank survey

The survey covered twelve villages in the Kolar district.

Each household received a 200 litre storage tank in June 2024.

Water quality was tested at 46 sample points across the region.

The report recommends a second survey before March 2025.

## Appendix A. Typed summary of the survey

Total tanks installed: 1,480.

Budget used: 9.6 million rupees.
